SUMMARY

ML Platform leader (10+ years) specializing in building production-grade AI infrastructure at scale. Migrated a 50+ person DS org to AWS SageMaker, cut cloud costs by 50% (~£150K/year), and productionized 20+ ML models generating 8M+ GBP in revenue impact. Open to Principal/Staff/Lead roles — remote or hybrid UK/India.

EXPERIENCE

Machine Learning Platform Lead | Jet2 Travel Technologies | Apr 2026 – Present - Architected cloud-native MLOps platform (SageMaker, Snowflake, Terraform) for 20+ projects & 50+ users - £150K/year cost savings via rightsizing, lifecycle policies, VPC optimization - Built CI/CD, model governance, observability, and cost monitoring from scratch

Technical Lead – DS & ML | Jet2 | Jul 2022 – Apr 2026 - Founded MLE team (6–8 engineers); productionized 20+ models across Pricing, Marketing, Fuel, Risk - Established deployment patterns and MLOps standards for 40+ data scientists

Senior ML Engineer / Senior Data Scientist | Jet2 | Nov 2020 – Aug 2022 - Built MLE function; transitioned models from research to production with automated pipelines

Senior Data Scientist / Data Scientist | Evolent Health | Oct 2018 – Nov 2020 - Healthcare ML: fraud detection, OCR automation, real-time APIs — ~7M USD combined annual savings

Data Science Associate | Cognizant | Nov 2015 – Sep 2018

KEY IMPACT

Domain	Project	Impact
Platform	Dataiku → SageMaker Migration	£150K/year savings, 50+ users enabled
Revenue	Hotel Price Elasticity	+5M GBP (2024)
Revenue	Flight Price Elasticity	+3M GBP (2024)
Healthcare	DRG Recoup + Auto Intake	~7M USD/year combined savings

SKILLS

MLOps & ML Platform Architecture · AWS SageMaker · Terraform · LLM/GenAI · Snowflake · CI/CD for ML · Docker · Python · SQL · Airflow · Spark · GCP · TensorFlow · sklearn

EDUCATION & CERTIFICATIONS

M.Tech, IIT Gandhinagar (8.76/10) | B.E., SGBAU (85%, College Topper)

AWS Certified ML Engineer | Google Cloud Professional ML Engineer | Speaker, Analytics Vidhya Datahack Summit 2022
