

Pratik Shirbhate

Lead AI/ML Platform Architect | MLOps & ML Platform Engineering | AWS, SageMaker, Terraform

Pune, India | pratikshirbhate@gmail.com | [LinkedIn](#) | [GitHub](#)

SUMMARY

ML Platform leader with 10+ years of experience turning fragmented experiments into production-grade AI systems. At Jet2, I architected and delivered a cloud-native MLOps platform serving 50+ data scientists, cut infrastructure costs by 50% (~£150K/year), and productionized 20+ ML models across pricing, marketing, and revenue domains. Previously built healthcare ML systems delivering ~7M USD in annual savings at Evolent Health.

Seeking Principal / Staff / Lead roles in ML Platform Engineering or AI Infrastructure Architecture. Open to remote or hybrid UK/India.

PROFESSIONAL EXPERIENCE

Jet2 Travel Technologies | 5 years 7 months

Machine Learning Platform Lead | Apr 2026 – Present

- Led Dataiku → AWS SageMaker migration for 50+ member DS org, delivering multi-environment MLOps platform supporting 20+ projects
- Cut cloud costs by 50%+ (~£150K/year) via compute rightsizing, lifecycle policies, and VPC optimization
- Established AWS account structure, IAM governance, and VPC architecture for secure self-service (50+ users)
- Standardized CI/CD pipelines, Docker/ECR environments, and release governance
- Built cost monitoring giving leadership first-ever per-project AWS spend visibility
- Managed 5–8 ML engineers across UK and India

Technical Lead – DS & ML | April 2023 – April 2026

- Founded MLE team (6–8 engineers); owned productionization of 20+ models across Retail Pricing, Marketing Attribution, Fuel Forecasting, Revenue Risk
- Built CI/CD pipelines for model training, validation, and deployment for 40+ data scientists
- Established MLOps standards: monitoring, versioning, lifecycle management — became org-wide practice

Senior ML Engineer | April 2022 – April 2023

- Built MLE function from scratch; transitioned models from research to production with automated workflows
- Implemented model monitoring and logging for production performance tracking

Senior Data Scientist | Nov 2020 – April 2022

- Developed and deployed ML models for airline pricing and revenue optimization
- Feature engineering, model evaluation, and stakeholder collaboration

Evolent Health | 2 years 2 months

Senior Data Scientist / Data Scientist | Oct 2018 – Nov 2020 | Pune

- Led India DS team; built fraud detection, OCR automation, and real-time ML APIs
- Delivered ~7M USD combined annual savings across healthcare analytics projects

Cognizant | Nov 2015 – Sep 2018

- Data Science & Big Data Associate; built PoCs and conducted analysis for enterprise clients

KEY PROJECTS & IMPACT

Platform & Infrastructure

- Dataiku → AWS SageMaker Migration: 20+ initiatives migrated, £150K/year savings, self-service for 50+ users

- MLE Team (Founded): 20+ models productionized, repeatable patterns for 40+ data scientists

Revenue (Jet2)

- Hotel Price Elasticity: +5M GBP revenue (2024)
- Flight Price Elasticity: +3M GBP revenue (2024)
- Package Only Flights: +30% Holiday Mix

Healthcare (Evolent)

- DRG Recoup: ~3M USD/year savings (fraud detection)
- Auto Intake OCR: ~4M USD/year savings (40% manual effort reduction)
- Provider Matching: <300ms real-time API, ~100K USD/year savings

TECHNICAL SKILLS

MLOps & ML Platform Architecture · AWS SageMaker · Terraform · LLM/GenAI Infrastructure · Snowflake · CI/CD for ML
· Docker · Azure DevOps · Python · SQL · Apache Airflow · Spark · GCP · sklearn · TensorFlow · H2O AutoML

EDUCATION

- M.Tech (Mechanical Engineering) | IIT Gandhinagar | 2013–2015 | 8.76/10
- B.E. (Mechanical Engineering) | SGBAU, Maharashtra | 2009–2013 | 85%

CERTIFICATIONS

- AWS Certified Machine Learning Engineer – Associate
- Google Cloud Professional Machine Learning Engineer
- Speaker at Analytics Vidhya Datahack Summit 2022
- AI for Medicine Specialization (deeplearning.ai)
